DETAILED ACTION

Summary

On May 20, 2004, an Office Action was mailed to the Applicant rejecting claims 1-37. On October 26, 2004, the Applicant responded by amending claims 1, 9, 15, 18, 23, 27, and 31.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Wallman (6,601,044).

Wallman discloses the invention substantially as claimed, as discussed in the previous Office Action. With regard to the amendment, Wallman discloses utilizing a portfolio manager to manage one or more stock portfolios, wherein the step of managing one or more stock portfolios comprises adjusting the percentage of the portfolio for each holding (col.12, lines 30-54 and col.24, lines 1-31—the program acts as a portfolio manager).

Response to Arguments

Applicant's arguments filed October 26, 2004 have been fully considered but they are not persuasive. The Applicant argues that Wallman does not disclose or suggest utilizing a portfolio manager to manage a portfolio, nor does Wallman disclose or suggest the adjustment of the percentage of each holding in a portfolio being made by the portfolio manager. In response, the program itself acts as a portfolio manager in that it allows the investor to input adjustments, and then the program itself makes the appropriate adjustments to the portfolio. The program also gives advice to the investor pertaining to making adjustments in the allocation of assets to help meet the investor's goals, thus, acting as a portfolio manager.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
